UX Case Study

English Language Learning App

PROBLEMS

- English has a large and complex vocabulary,Grammar and pronunciation which can be difficult for non-native Speakers to learn.
- Learning English Fluently is tough for people who have not being Exposse to it regularly
- Some Students Struggle with traditional grammar rules and vocabulary lists for regular classes.

SOLUTIONS

- Users can learn English with this app through interactive tools ,including vocabulary, and pronunciation lessons.
- Users can also expand their knowledge and improve their skills in speaking .listning with our English learning app.
- we are providing the courses and mentor support free of cost and also give certificates and awards.

Quantitative Research

I begun by studying how people use Learn long and what they think about it. I used the app myself and looked at what users said in the Play Store. Many improved their language skills with Babble, but they needed to practice speaking with native speakers to become fluent. I also did desk research and found that by using Learn long almost every user improved their grammar and vocabulary whereas almost 50 percent of participants improved their oral proficiency using Babble! Unsurprisingly, those who used the app for longer periods improved their vocabulary and grammar skills even further.

Pain Points

After doing research and analyzing all the feedback from the users I got the following pain points.

- Poor UI and not intuitive.
- Poor UI and not intuitive.
- The app is difficult to use for people who are not linguistic experts (Lack of explanation).
- Not able to review the question instantly, the user needs to take a screenshot so that answer can be verified at the end of the lesson.
- There's no tracking of words learned.
- Need to open settings to switch the learning app.

Observations

50%

Faces some problem when they speak English.

50%

Understand native Languages

User Persona

To represent our users, I created a user persona: Roj Kapoor, 25, who enjoys travel and aims to learn languages for better conversations abroad.

Roj kapoor
Age :25

Interest

Parties	Traving
Entertainment	Social Media

Goals

- To travel as many Countries
- To learns multiple language.

Frastations

- facing difficulities speak with native speakers while traving.
